

# Improving Boulder City Governance through Better Elections: Four Perspectives

Photo credit:  
[outtherecolorado.com](http://outtherecolorado.com)

# The League of Women Voters

We are a non-partisan political organization, which means we never support candidates or political parties. We do take positions on issues, based on study and consensus by the membership. We are working to **make democracy work for ALL**. We envision a democracy where **every person** has the desire, the right, the knowledge **and** the confidence to participate. *And, the League is NOT for women only!!*

We encourage you to join the League, follow us on Facebook, and to check our website for upcoming events.

# Four Perspectives:

- 1) Electing Council Members by District:** Rich Lopez, former Boulder council member
- 2) Our Mayor – Our Choice:** Jan Burton, former Boulder council member
- 3) Multi-Winner Voting Methods:** Celeste Landry, LWVBC Voting Methods co-leader
- 4) Single-Winner Voting Methods:** Marcus Ogren, CO Approval Voting Chapter

# Some Clarifications:

In today's session, Boulder refers to the *City* of Boulder, Colorado (Note: LWVBC refers to LWV of Boulder County).

The term “Ranked choice voting (RCV)” can have multiple meanings.

# Boulder City Council Elections

9 members – Multi-winner at-large elections

A voter may vote for as many candidates as seats to fill

5 city council members elected every 2 years (odd years)

Top 4 vote-getters win 4-yr term, 5<sup>th</sup> vote-getter a 2-yr term

# Boulder City Mayor

Mayor chosen by council from among its members

Boulder has a “weak mayor – strong city manager” system.

City council hires the city manager

# Agenda

- Introduction to the current structure of Boulder City Council.
- Each panelist will have a 10 minutes to present their perspective on "What you see as Boulder's governance problems and what are possible electoral system solutions?"
- Questions and comments from the panelists
- Q&A with the audience — please type your question in the chat

# League of Women Voters Panel Discussion

Electoral Governance in Boulder, Colorado

Jan Burton

7/19/2020

# Boulder's Governance Issues

- Council elections
  - At-large, using “first past the post” election system
  - Encourages block (slate) voting; spoiler effect
- Mayor is not directly elected by the people
  - Top three city officials are not elected by the people
- Council pay is not representative of workload
- Low level of participation, especially among younger voters

## Potential Solutions

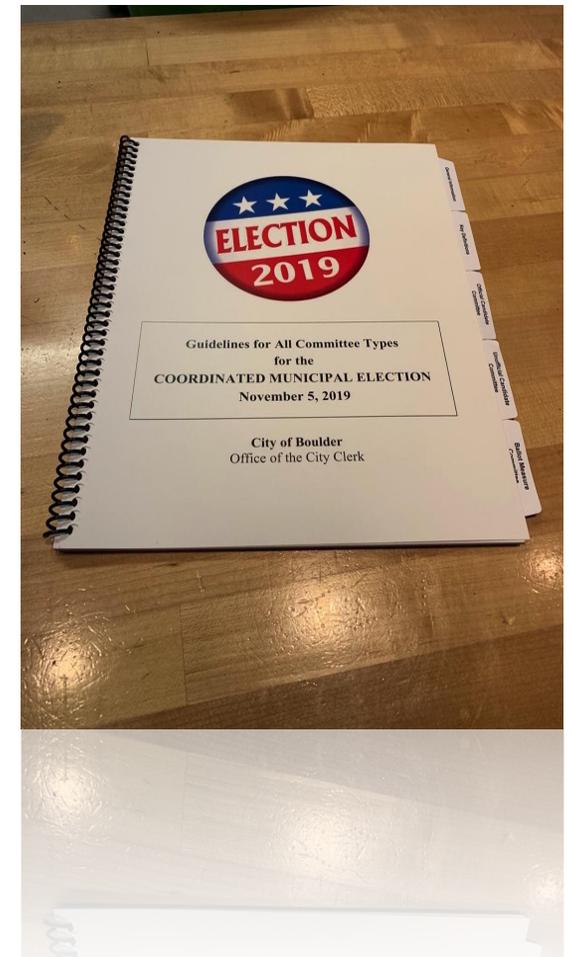

- Ranked choice voting system for Council elections
- Direct election of the mayor
- Increase Council member pay
- Examine wards or districts for council elections
- More powerful form of mayor

# Current ballot initiative gathering signatures

# Directly Electing our Mayor

- Boulder voters would vote for our Mayor
  - ❖ Using ranked choice voting (first time for majority voting)
  - ❖ Even-year election gains 20,000 more voters
  - ❖ Mayor would get a 4-year term

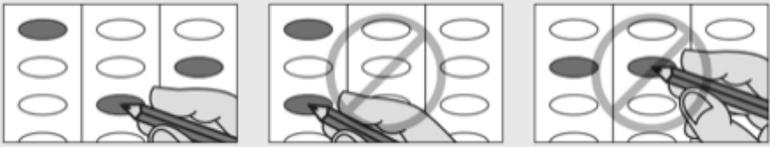

# Ranked Choice Voting

Simply rank as many or as few candidates as you wish.

Ranked Choice Voting (RCV) empowers you the voter to securely voice your values.

Voters find this easy and compelling.

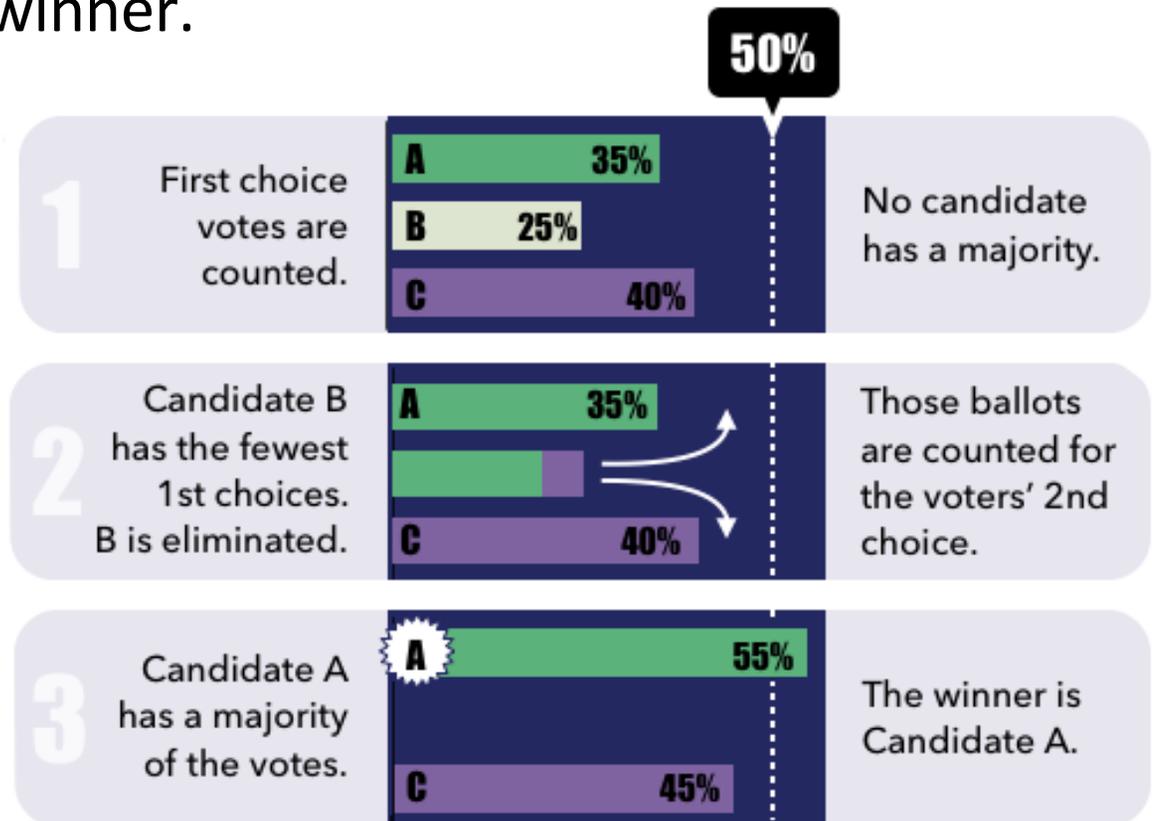

Fill in the oval completely.      No more than 1 oval in a column.      No more than 1 oval for a candidate.

Coolest Colorado Animal			
Rank up to 3 candidates. Mark no more than 1 oval in each column.	First choice 1st	Second choice 2nd	Third choice 3rd
Bear	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Bighorn Sheep	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Mountain Lion	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

# Ranked Choice Voting

Tally finds a majority winner.

# Ranked Choice Voting

- RCV is an improvement from plurality
  - ❖ **More Fair:** winner must earn a majority of the support.
  - ❖ **More Voice:** voters freely rank the candidates, secure from worries of “vote-splitting.”
  - ❖ **Diversity Equity Inclusion:** More people of color and women run and win.

# Ranked Choice Voting

- Proven effective over 100 years
  - ❖ Recommended by leading scholars
  - ❖ Meets national League of Women Voters position criteria
  - ❖ Successfully used in Colorado

# Timeline to better governance

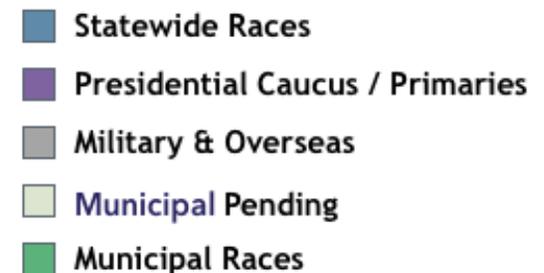

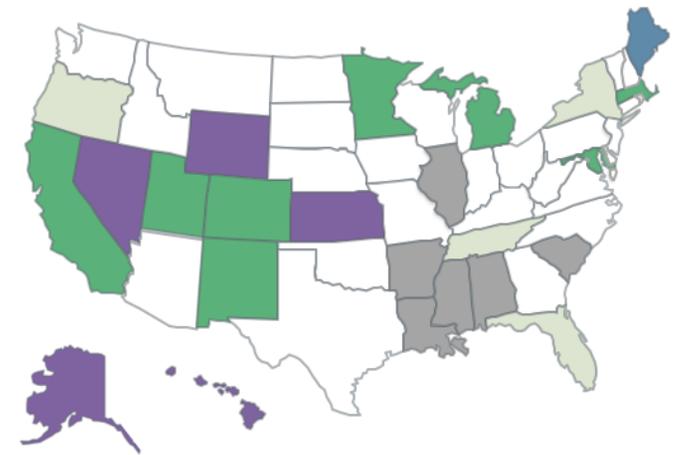

Thank you.

Backup

# Ranked Choice Voting

- Boulder is ready.
  - **Optimizes Mail-ballots:** If a candidate drops out, the voter is protected.
  - **RCV Tally:** Included in the most recent county software update.
  - **Staff Experience:** Election professionals at Boulder Elections have run RCV elections before.

# Multi-Winner Voting Methods for the City of Boulder

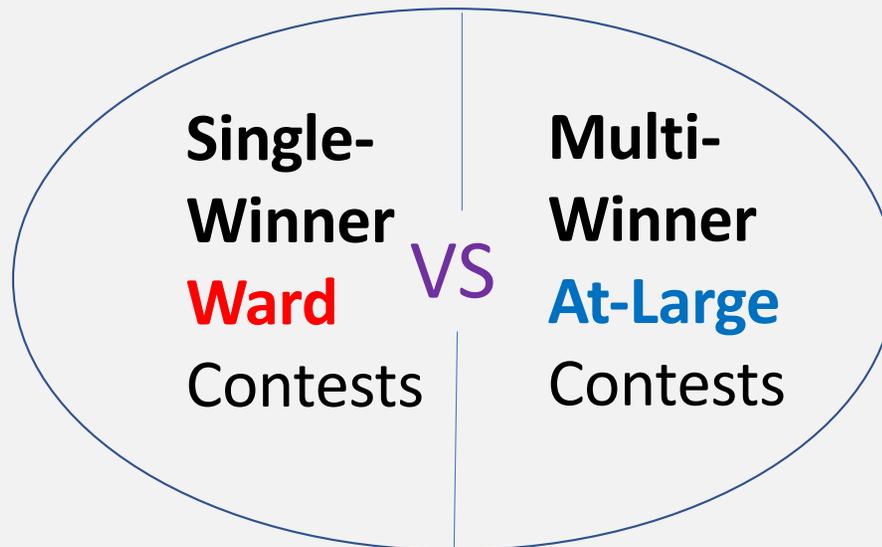

Vote  
for 5

Or rank,  
rate or  
weight?

Presenter: Celeste Landry  
LWVBC Voting Methods Team Co-Leader

# Council (Multi-Member) Elections: 2 Distinct Types

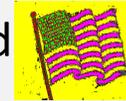

A city council  
may have some  
of each type.

# Advantages of Multi-Winner Contests

- **Eliminate gerrymandering**
- **Increase competitiveness**

I Voted

# Competitiveness Problems in **Single-Winner** Districts

*Problem #1* - Many district elections are **uncontested** giving voters no choice. A candidate can win due to geography, rather than ability.

*Problem #2* - **Two good candidates** vie for one district seat. Only one of the good candidates can win.

# Broomfield City Council Single-Winner Elections

<b>Number of Broomfield Municipal Candidates by Contest and Year</b>									
<b>Contest</b>	<b>2019</b>	<b>2017</b>	<b>2015</b>	<b>2013</b>	<b>2011</b>	<b>2009</b>	<b>2007</b>	<b>2005</b>	<b>2003</b>
Mayor	3	2	1	2	2	2	3	3	2
Ward 1	2	2	2	2	1	2	3	3	3
Ward 2	2	1	1	2	1	1	2	2	2
Ward 3	3	2	1	2	1	1	2	1	1
Ward 4	2	4	2	2	1	2	2	3	2
Ward 5	2	3	1	1	1	3	2	2	2

# Diversity in Multi-Winner Contests

Top two vote-getters in the 2019 Boulder City Council election:

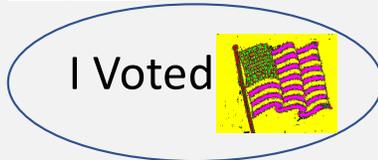

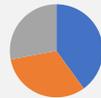

- 1) A Republican man
- 2) A Black woman

Republicans and Blacks are minorities in the city of Boulder, but they have representation on the city council.

**Strategies** that voters may employ in vote-for-5 elections to increase diversity:

- Vote only for 1 – a minority candidate – to improve that candidate’s chances  
**Not a viable strategy for an uncontested or 2-candidate race**
- Vote for your favorite(s) and a “minority” candidate  
**Not possible for vote-for-one single-winner contests**

# Advantages of Multi-Winner Contests

- **Eliminate gerrymandering** 
- **Increase competitiveness** 
- **Use a voting method that promotes proportional representation** 

# Proportional Representation: Boulder City Council 1917-1947

“For elections of officials, the Hare system of preferential voting is prescribed. This system insures a **real representation of like-thinking groups of voters**, instead of the present fictitious representation based on wards or other arbitrary geographical districts. It minimizes also the well known evils of parties and of excessive campaign funds.”

-- from Prefatory Synopsis, Charter of the City of Boulder, CO

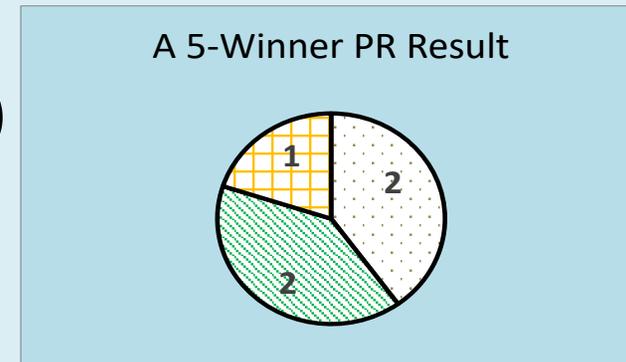

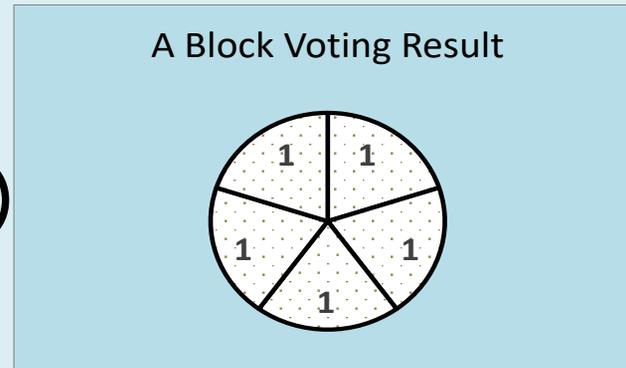

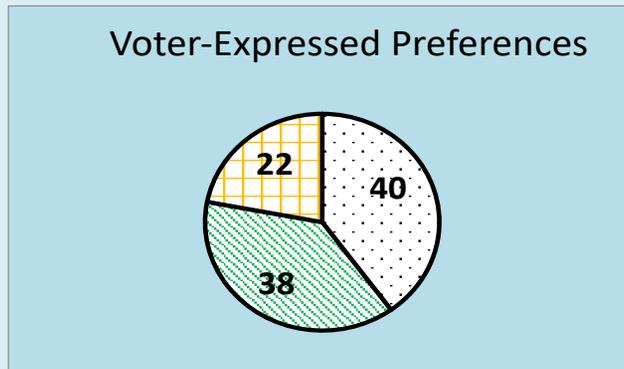

# Non-Partisan Proportional Representation (PR)

Non-partisan PR elections allow the VOTERS to choose

***the characteristics which matter most  
to them and/or which are the  
important issues of the campaign:***

renters, religion, age, gender, racial/ethnic, positions on issues  
(fracking, guns), or, yes, political ideology (endorsements) or geography

# Achieving Proportional Representation

# Multi-Winner Council Elections

## Promote PR

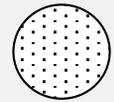

**Rank:** Hare aka STV form of RCV

**Rate:** Proportional forms of Approval Voting

**Weight:** Cumulative Voting (semi-proportional)

PLACE Voting (use in single-member districts for a multi-member body)

## Do Not Promote PR

Block Plurality Voting (Boulder)

Block Approval Voting (CUSG, Fargo)  
– better than plurality

Block Preferential RCV  
– worse than plurality

# Block Plurality Election

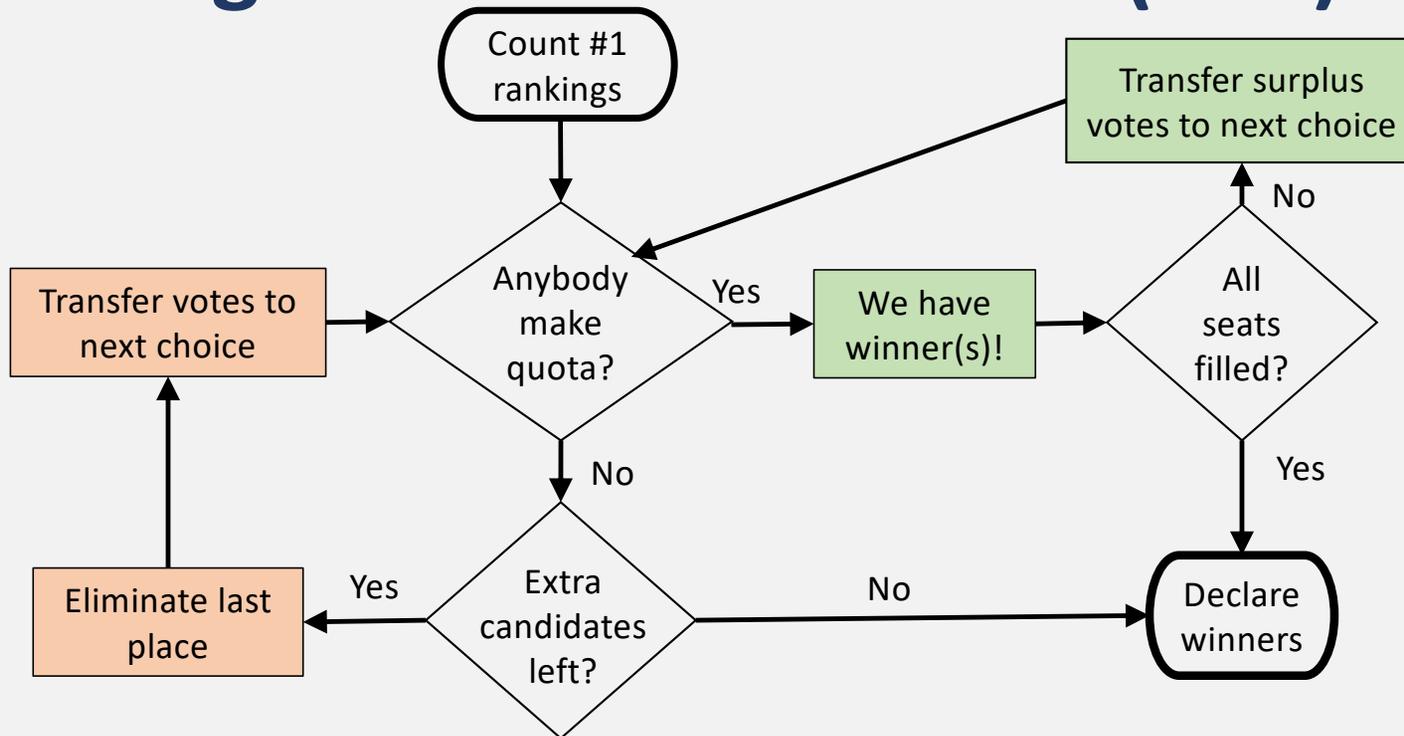

1,000 voters      5 seats to fill      15 candidates

Every voter votes a straight-slate of 5 candidates.

**Polka Dot candidates sweep all the seats with 40 % of the vote.**

Polka Dot A	400	Stripe A	380	Squares A	220
Polka Dot B	400	Stripe B	380	Squares B	220
Polka Dot C	400	Stripe C	380	Squares C	220
Polka Dot D	400	Stripe D	380	Squares D	220
Polka Dot E	400	Stripe E	380	Squares E	220

# Simplified Flowchart of Single Transferable Vote (STV)

# Single Transferable Vote Election

1,000 voters      5 seats to fill  
Quota to win is 167 votes >  $1000/(5+1)$

Round 1 (Tabulation of #1 Rankings):

**Polka Dot A and Stripe A win!**

Polka Dot A	<b>200</b>	Stripe A	<b>210</b>	Squares A	132
Polka Dot B	134	Stripe B	100	Squares B	30
Polka Dot C	46	Stripe C	40	Squares C	23
Polka Dot D	15	Stripe D	20	Squares D	20
Polka Dot E	5	Stripe E	10	Squares E	15

# Single Transferable Vote Election

1,000 voters      5 seats to fill

Quota to win is 167 votes  $> 1000/(5+1)$

Round 2 (Transfer surplus votes):

**Polka Dot B wins!**

PolkDot A	<del>200</del> <b>167</b>	Str A	<del>210</del> <b>167</b>	Squ A	132
PolkDot B	<del>134</del> <b>167</b>	Str B	<del>100</del> 143	Squ B	30

# UK Parliament Debate

## 2017 Oct 30

# Single-Winner Voting Methods

# Burlington, VT 2009 Mayoral Election

Candidate	Bob Kiss (Progressive)	Andy Montroll (Democrat)	Kurt Wright (Republican)
Votes	2981 ( <b>33.8%</b> )	2554 ( <b>28.9%</b> )	3294 ( <b>37.3%</b> )

# Burlington, VT 2009 Mayoral Election

Candidate	Bob Kiss (Progressive)	Andy Montroll (Democrat)	Kurt Wright (Republican)
Votes (round 1)	2981 ( <b>33.8%</b> )	2554 ( <b>28.9%</b> )	3294 ( <b>37.3%</b> )
Votes (round 2)	4313 ( <b>51.5%</b> )	0 (eliminated)	4061 ( <b>48.5%</b> )
<b>Kiss Wins</b>			

# Burlington, VT 2009 Mayoral Election

Candidate	Bob Kiss (Progressive)	Andy Montroll (Democrat)	Kurt Wright (Republican)
Votes (round 1)	2981 ( <b>33.8%</b> )	2554 ( <b>28.9%</b> )	3294 ( <b>37.3%</b> )
Votes (round 2)	4313 ( <b>51.5%</b> )	0 (eliminated)	4061 ( <b>48.5%</b> )
<b>Kiss Wins</b>			

Montroll vs. Kiss	
Montroll: 4064 ( <b>53.9%</b> )	Kiss: 3476 ( <b>46.1%</b> )
<b>Montroll Wins</b>	

Montroll vs. Wright	
Montroll: 4597 ( <b>55.6%</b> )	Wright: 3664 ( <b>44.4%</b> )
<b>Montroll Wins</b>	

# Approval Voting

Simple; vote for as many as you like

Strategic and well-informed voters elect beat-all winners:

- If the beat-all winner would lose, there is a majority who would be better off voting for the beat-all winner (and their preferred candidates)
- Therefore, that majority will elect the beat-all winner if they're strategic

Not as good when voters lack polling data

Vote for one or more candidates The candidate with the most votes wins	
<b>ELEANOR ROOSEVELT</b> Incumbent	<input type="radio"/>
<b>CESAR CHAVEZ</b> Labor Organizer	<input checked="" type="radio"/>
<b>WALTER LUM</b> Publisher	<input type="radio"/>
<b>JOHN HANCOCK</b> Physician	<input type="radio"/>
<b>MARTIN LUTHER KING, JR.</b> Minister	<input checked="" type="radio"/>
<b>ANNA MAE PICTOU AQUASH</b> Indigenous Rights Organizer	<input checked="" type="radio"/>

# Score Voting

Score as many candidates as you like. Highest total score wins.										
Batman	0	1	2	3	4	5	6	7	8	●
Catwoman	●	1	2	3	4	5	6	7	8	9
Lex Luthor	●	1	2	3	4	5	6	7	8	9
Spiderman	0	1	2	3	4	5	6	7	8	9
Superman	0	1	2	3	4	5	●	7	8	9

# How does STAR Voting work?

Voters score candidates, and ballots are counted in a two step process: Score, Then Automatic Runoff [STAR]

## Ballot

Score candidates from 0 to 5.

**5 is full support**  
**0 is no support**

Those that you leave blank  
receive a 0.

★	0	1	2	3	4	5
Andrew	0	1	2	3	●	5
Bianca	0	1	2	3	4	●
Chris	0	1	2	3	4	5
Desi	0	1	2	3	●	5
Edith	0	●	2	3	4	5
Frank	0	1	2	3	4	5

## ROUND 1: Score

The two highest scoring  
candidates are finalists.

Rank	Total Score
1: Andrew	21,192
2: Edith	20,394
3: Chris	19,102
4: Desi	10,390
5: Bianca	1,542
6: Frank	346

*Way to go, Andrew & Edith!*

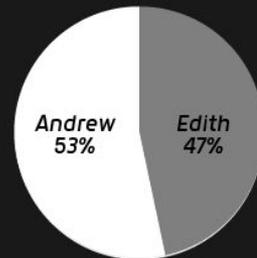

## ROUND 2: Then Automatic Runoff

The ballot already indicates  
the voter's preferred finalist.

★	0	1	2	3	4	5
Andrew	0	1	2	3	●	5
Bianca	0	1	2	3	4	●
Chris	0	1	2	3	4	5
Desi	0	1	2	3	●	5
Edith	0	●	2	3	4	5
Frank	0	1	2	3	4	5

*Andrew gets this vote.*

RESULTS:  
**The finalist  
preferred by the  
majority wins!**

Andrew*	42,533	53%
Edith	37,134	47%

**\*CONGRATULATIONS, ANDREW!**

Method	Plurality	IRV (Instant runoff)	Approval	Score	STAR (score+runoff)
Complexity	Very low	Medium	Very low	Low	Low-medium
Expressiveness	Terrible	Good	Okay	Great	Great
Performance with honest voters	Massive vote splitting	Center squeeze	Possible vote splitting	Great	Great
Performance with strategic voters	Two-party system	Two-party system	Elects beat-all winners	Identical to Approval	Slightly less great
Performance with mix of honest and strategic voters	Two-party system with spoilers	Two-party system (probably)	Elects beat-all winners (probably)	Greater influence for strategic voters	Slightly greater influence for strategic voters
Voter Satisfaction Efficiency	72-86%	80-91%	84-96%	84-97%	91-98%
